

GENUS ONE HYBRID NET

THE HYBRID SYSTEM FOR HEATING,
WATER HEATING AND COOLING.
UPGRADE YOUR COMFORT.

**THE SMART HYBRID MANAGER
COMBINES THE MOST PERFORMING
TECHNOLOGIES IN EVERY CLIMATE
CONDITION, OPTIMIZING EFFICIENCY
IN ALL SEASONS.**

**THE ULTIMATE SOLUTION
FOR COMFORT,
PERFORMANCE AND
SAVING.**

In order to maximize comfort and minimize energy consumption, the **Hybrid System** integrates the two most advanced technologies in thermal comfort: high performance **heat pumps** and the latest generation of **gas condensing boilers**. Thanks to the innovative **HYBRID MANAGER**, that automatically selects the most convenient heating sources combination at all times, Hybrid System is the best way to **heat, cool** and produce domestic **hot water** with the highest efficiency and highest comfort in every moment of the year.

TOTALLY CUSTOMIZABLE TO THE NEEDS OF YOUR HOME.

The **Hybrid System** can manage a buffer and be integrated with solar water heaters and photovoltaic products. It can also be connected to accessories and modules to manage two zones both for heating and cooling.

THE WINNING CHOICE TO MAXIMIZE ENERGY EFFICIENCY.

With a heat pump ready for 2019 **A+++ Energy Class** and a boiler with the innovative **Ignition Control system**, efficiency and performance are enhanced in any condition, both when **heating** and **cooling**. The Hybrid System is also compliant with new building regulation and gives you **access to financial incentives** for renovation*.

* where applicable

EASY MANAGEMENT WITH JUST ONE TOUCH.

The new **Sensys NET interface** provides easy thermoregulation control and allows remote management via the **Ariston NET APP**, with 24/7 assistance included.

Internet Weather function manages the thermoregulation with no wires, sparing technicians the installation of an external probe.

SMART CONNECTIVITY. THE APP THAT MAKES YOUR PRODUCT SMART.

WHEREVER YOU ARE, ALWAYS AT YOUR FINGERTIPS.

Managing and controlling your hybrid system from anywhere has never been so easy: now you can keep your home warm or cool and have hot water ready for when you get back there.

USE JUST THE ENERGY YOU NEED AND SAVE ENERGY.

Improve the way you use energy by monitoring your consumption and schedule the use of your energy more efficiently.

TECHNICAL SUPPORT ALWAYS ON.

Thanks to the innovative monitoring system, the app is able to advise you, in case of an occurrence of any problem to the system. By activating the remote diagnostic service, your after sales service company is able to immediately solve many problems remotely.
